The Frenchman was carried to Galveston as a stowaway. Immigration Inspector Morton has received the promise of Captain Goodwin that the man will be returned to the ship and not allowed to stay here.

They had placed near the corner of Church and Queen Streets, where the police made a raid on Saturday night. All of the men found playing in the place were fined \$5 each for disorderly conduct. Tinsell as surety for their appearance.

ACCIDENT TO THE GALVESTON.

The Galveston started from here to Cuba, with orders to go to Samana Bay, Santo Domingo, and thence to Galveston, Texas. It is stated that the damages are slight, and that the cruiser will start south again in a few days.

TAUGHT THE TEACHERS.  
H. G. Johnson, Jr. jail here, accused of beating the Lexington Hotel, Richmond, and the Granby Hotel, here, of board bills, had been occupying his time here as an advisory and profits editor. He went to the public schools to lecture to the pupils or to the teachers on subjects suggested, and showed such familiarity with schools and their methods that he was believed when he said he was from Boston, where he had taught in the public schools, and was on his way to New Orleans, where he would instruct the teachers. He induced one of the prominent preachers to guarantee his board and lodging at one of the hotels here, but the hotel keeper had some experience with the Johnsons' experience and warned the preacher that he would not accommodate the boarder. Johnson is in jail, awaiting trial in the Police Court to-morrow. He is not known here, except to the teachers, and they are not telling the details of their confidence in the traveling educator.

## LUNENBURG WANTS ROAD

Citizens Plan Movement to Attract Tidewater Railway.

(Special to The Times-Dispatch.)  
LUNENBURG, C. H., VA., March 27.—At a meeting of the citizens of Lunenburg, held Saturday at Lunenburg Court-house, at the request of Mr. Elliott, a representative of the Tidewater Railway Company, Mr. R. H. May was elected chairman and G. T. Allen secretary. Messrs. T. J. Arvin, T. C. Powles and A. B. Blackinton were appointed as a committee to confer with the owners of land in the upper end of the county, through which the railroad is likely to run, to ascertain whether or not they would donate the right of way. Messrs. G. H. Love, H. M. Johnson and A. B. May were appointed a committee for the lower end of the county for the same purpose.

This movement, it is hoped, will secure the construction of the Tidewater Railroad through Lunenburg. The road, which is much needed, will open up a fertile section of the county, which is now entirely without railroad facilities. The route has already been surveyed. It will run within three miles of Lunenburg Courthouse.

GERTRUDE JENKINS.

## New Strength— Increased Vigor.

It is easy to get into a run down state and stay that way and forget what real health is. We never appreciate real health when we have it.

After feeling all run down, nervous and tired out, month after month, most people simply hope against hope that they will feel better soon.

Instead of trying to do something to help themselves feel better, they depend on hope. The only way to really help yourself is to get new strength and increased vigor.

Win back your right to feel strong and well every day.

A well person ought to wake up with a laugh every morning.

Health, vigor, determination, courage—in fact, all that makes life worth living depends upon a healthy supply of Nerve Force.

Paine's Celery Compound builds up the supply of Nerve Force, it revives the old force and makes new. It not only does this, but by strengthening the nerves that control all the organs of the body, it cures the real cause of headaches, neuralgia, rheumatism, malaria, and the many diseases coming from a run down condition of the nerves.

Gertrude Jenkins allowed herself to gradually sink into nervous prostration, one of the final states that tired, abused nerves reach. Her experience is valuable to all those who feel "run down," "tired out" and are not helping themselves to get back to real health.

"Paine's Celery Compound cured me of nervous prostration when I was so weak and used up that I had to lie down part of each day. The doctor advised me to go away and take a vacation to build up, but I could not give the time or money. Paine's Celery Compound built me up within two weeks—my headaches disappeared, my appetite returned and the aches and pains gave way to new strength, life and increased vigor. I enjoy perfect health today and used less than five bottles of Celery Compound, so know by experience how valuable it is."—Gertrude Jenkins, 714—63d St., Chicago, Ill. (Member Ladies of the Maccabees.)

"Nervousness," "nervous prostration," "nerve decline,"—that run-down, worn-out feeling,—nine times in ten are simply the result of prejudice, carelessness, or ignorance.

Prof. Phelps, of Dartmouth University, was the first physician to enunciate the principle which to-day is recognized as one of the foundations of the science of medicine,—the great enlightening truth, that the nerve system rules all the body's health.

He sought and found the food that builds up and restores the nerves—his celery formula, which has become famous as Paine's Celery Compound—the celebrated nerve vitalizer and tonic.

Paine's Celery Compound is giving New Nerve Force to thousands every day by feeding and restoring the nerves to their full strength. It never fails to build up the run down system to full, ruddy health.

Two days' treatment proves its marvelous power. It braces you up. You feel better at once.

Sick headache, palpitation, dizziness, and heartburn are usually relieved by a single dose of Paine's Celery Compound.

For over 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, and all reputable Druggists sell and recommend it.

## SERIOUS RESULT OF A LOVERS' QUARREL

Ananias Degwynn Seriously Shot by His Sweet-heart.

(Special to The Times-Dispatch.)  
SUFFOLK, VA., March 27.—As the outcome of a quarrel at Cartwright's Wharf, Va., last night, Ananias Degwynn is mortally wounded and his former sweet-heart, Lucy Ely, is in a preliminary trial today. The case was held for the grand jury without bail. According to the woman she had tried to force Degwynn to marry her Sunday evening. She says her one-time lover sought to break into her home with an axe and then she secured a revolver and fired at him twice through a window. The second bullet entered a nostril and lodged in his head. Dr. LeGare Hargrove, the surgeon in attendance, says Degwynn will die.

Justice Smith today took down Degwynn's ante-mortem statement, in which he denies an attempt to forcibly enter the woman's home.

THE GOULD SURVEY.

A Negro Lawyer Gets in Jail for Trying to Grab a Farm.

(Special to The Times-Dispatch.)  
WYOMING, VA., March 27.—The Gould corps of engineers are still in the neighborhood surveying. They are now on the ridge road running from Mango-

hick to Aylett. During the last few days they surveyed a route from Mango-hick to Beulahville, down Smoky Road, but did not think well of the grades. A well-known negro lawyer, Willis Tucker, caused a bit of excitement a few days ago by taking possession of a farm. He asked the owner to let him have the key to the house to get a cat out that he thought was shut up. On getting inside he told the man who gave him the key that he had bought the property according to agreement and that he would not give the key back. Tucker was arrested and taken before Magistrate R. L. McDermott. He was held for a few days and then was sent to jail in default of bail. It was proven that Tucker had no right to the property.

Exiles From Home.  
Every year sees thousands of pale and emaciated people leaving their homes for the benefit of a change of climate affords them. A large number of these poor sufferers who are thus exiled from home are affected with throat or lung trouble, asthma, bronchitis or consumption, which can invariably be traced back to a severe cold. No one would neglect a cold could he foresee such a termination. To go to a warmer climate for one's health is expensive and seldom altogether satisfactory. The prompt use of Chamberlain's Cough Remedy will save all this expense and worry. This remedy is widely known for its prompt cures of coughs and colds and thousands have testified to the permanent relief they have received by its use. For sale by all druggists.

## TO BRIDGE THE NOTTOWAY

Dinwiddie and Brunswick to Share Equally in the Expense.

(Special to The Times-Dispatch.)

(Special to The Times-Dispatch.)  
BUENA VISTA, VA., March 27.—The hardware store of H. L. Gilkeson was broken into a few nights ago and about \$75 worth of goods taken.

Owing to several new enterprises going up here, there is not a vacant house in town and the sound of carpenter's hammers is heard on all sides. People are paying up the delinquent taxes on lots that have lain idle since the boom, and building houses on these same lots.

These taxes have accumulated on many town assessments and amount to a great deal more than the lots have brought a few years ago. Among those most actively engaged in this work are R. J. Brown, a leading merchant, and Newland and Counselman, W. T. Pastward.

## THE CONFERENCE SCORES LIQUOR

(Special to The Times-Dispatch.)  
WINCHESTER, VA., March 27.—The fifth day of the Baltimore annual conference of the Methodist Episcopal Church, South, passed without announcing a verdict in the case against Rev. J. O. Knott, of Lexington, Va.

This will doubtless be done in the morning, as it is believed the conference will adjourn at noon.

To-day invitations were extended for the conference to meet next year in Cumberland, Md., and Charleston, W. Va., but the former secured the meeting.

A particular feature was the adoption of resolutions scoring the liquor traffic as the greatest evil confronting the American people, urging all to unite in securing the extinction of the saloon and having the present laws rigidly enforced, while all the time working for total abstinence.

Another important report was that discountenancing Sabbath desecration, such as railroad excursions, Sunday newspapers, sports and unnecessary traffic. The conference declined to co-operate with Presbyterian Synod of Virginia to secure better religious facilities at the Annapolis (Md.) Naval Academy, not regarding the information at hand sufficient to justify any action by the conference.
